

Health Outcomes

Theory of Change Statement: *By providing funding to organizations with a health service mission, the Telluride Foundation expects to improve the quality of life of the Telluride Region by becoming the healthiest region in the state.*

1) *Our health programs:*

- *Provide quality, accessible programs that improve the health of the region*
- *Provide care at affordable costs*
- *Patients are satisfied and engaged.*

2) *Healthy lifestyles will decrease the need for health care and behavioral interventions.*

Required Demographic Indicators for All Grant Reports (all unique numbers)

- # of unique participants
- # of youth participants (Under 18)
- # of adult participants (18-64)
- # of non-Caucasian participants
- # of participants from outside of Telluride/Mountain Village
- # of participants who qualify for free and reduced lunch (185% of poverty, or \$20,665 for a family of 1 or \$42,644 for a family of 4)

Indicators for Health Programs

of participants eligible for Medicare (65 & Above)

After participating in grant-funded program:

- What % of patients report having an improvement in their overall health
- What % of patients report having a positive care experience

Healthy People 2020 Leading Health Objectives <https://www.healthypeople.gov/2020/>

- List HP 2020 Objective which you will track over the grant period: HP 2020 Objective Name
- List HP 2020 Objective Abbreviation & Number (For Example, AHS-1.1)
- Your Baseline # prior to grant funding
- Your Outcome # After Participation
- % Change from your Baseline to Final # $[(\text{Your Outcome} - \text{Your Baseline}) / \text{Your Baseline}] \times 100$
- % of Your Outcome to HP 2020 Target $(\text{Your Outcome} / \text{HP 2020 Target}) \times 100$
